

Summer On-Course Roles

We are seeking hard-working team members to join us for up to four months to help with the set up and delivery of these events at regional locations around the country.

Each summer the New Zealand Racing Board implements a number of programmes to assist and support racing clubs across New Zealand. These include Christmas at the Races, Interislander Summer Festival and the successful mini-marquee programme.

There are three types of roles available; to set up and manage the marquees, to help implement our event brands through on-course marketing, and to carry out customer research on-course. There are 46 positions nationally.

These exciting roles are great opportunities for someone looking to develop a career in the racing industry. There could be opportunities within the Racing Board available for those who shine!

To find out more about these roles and to apply, please go to www.nzracingboard.co.nz/employment-opportunities.html
